Felix Dufresne, the grandfather, also a patient at the Hospital, played the violin which he had not played for seventeen years. The violin which is an antique, belongs

Alex enjoyed playing the violin and used to play for many dances. He is a very quiet person, talking only when he has to. Previous to staying at the Hospital, Alex suffered two strokes, and as a result of this, he is now confined to a wheelchair.

Alex has a family of one sister, Julie Brosseau, who is a patient of the Hospital,

Felix Dufresne played the violin for the first time in seventeen years.

Letter to the Editor

Dear Editor:

As you are probably aware, just a few short weeks ago west of Edmonton, in the County of Parkland, there occurred a major setback in the Pupil Transportation industry. The result being the death of a five and a half year old child. This child was ran over and killed by his own bus.

This incident goes to prove that we in the Pupil Transportation industry and the Alberta Government have been running too long on the

assumption that we are operating a safe system and the dollars required to improve it were not necessary to spend.

To obtain a Class 2 license in which to drive a school bus and take the responsibility of 60 lives in ones care has been much too easy in the past. The lack of uniformity in rules and regulations across the province in the industry and also the lack of a standardized compulsory Driver Training program probably played a major role in the

death of this five and a half year old child.

We the Student Transportation Supervisors Association of Alberta in the last four years have been trying to toughen the regulations for obtaining a school bus license, to no avail. Our Association has developed what we feel, is the first step towards a uniform training program for school bus drivers. The Driver Training program is based upon the Alberta Transportation Safety Branch School Bus Driver Improvement Program which is available to School Divisions at present and is a self-teaching program. The program is composed of five modules and it is our goal to present these five modules on 16 mm or video in five and half hour segments of the practical application of each module. Thus making the film as well as the Driver Improvement Program a compulsory training program to obtain a Class 2 license to drive a school bus. The acute lack of funds has prohibited our Association from facilitating this type of program.

Thanks to the support of private industry in the past year our Association has been responsible for the production of a film entitled "Pay Day". This film deals specifically with discipline of Junior High students on a school bus, which is a major

Diet to end all diets!

Every few years an allegedly new and magic diet sweeps the land. Several years ago two appeared, the so-called "Mayor Diet" and the "Air Force Diet". These were categorically disclaimed by both the Air Force and the renowned Mayo Medical Clinic. The clinic conveyed its message through its newsletter Mayovox, in which it published a "diet to end diets". May you appreciate the "tongue-in-cheek" extremism!

concern to us all. We feel that this film will help to get the message across that discipline plays a very major role in the safe completion of each bus trip.

One of the problems that arises in our industry is that the Transportation Supervisor in each School Division has many other responsibilities and cannot dedicate full time to safety programs in our schools, proper driver training for new and old

drivers, etc. Therefore it is of vital importance that we develop this type of program on film to accompany the already excellent School Bus Driver Improvement Program to make it a complete package for the School Divisions in the Province of Alberta.

It would be very unfortunate if we in the Pupil Transportation Industry and the Provincial departments of Education and Transportation allow the death of this

five and a half year old child to go unnoticed. We must work together to provide the safest possible transportation for our children and hopefully prevent further deaths and injuries.

Yours sincerely

From "The Sergeant's Desk"

"None for the Road" is the theme for this year's Safe Driving Week which will take place December 1st to 7th. Safe Driving Week is an annual program sponsored by the Provincial Government and all Police Forces and is designed to re-emphasize safe driving practices.

I have been asked to supply statistics to the Government on all the accidents reported to our Detachment for the mentioned week. It would be a great pleasure for me to submit a "NILL RETURN".

Sgt. Jim Fell

From the first of November, to the date of this writing, we have had twenty-one (21) Motor Vehicle Accidents in our Detachment area; none fortunately, were serious. Most were attributed to the slippery road conditions during and after our first snow fall but most were because of misjudgement of speed and stopping distance.

Think about safe driving - ensure you come to a full stop at a stop sign, signal your intention to turn, use your headlights during the day when travelling on the Highway. This will enable others to see you better. We all know the rules of the road but we get lazy and when we get lazy, we increase our chances of having an accident.

F.G. Miller Report

During Childrens' Book Festival Week, we were very lucky to have an Alberta author visit the High School. On Wednesday, November 16, Brenda Bellingham, author of Joanie's Magic Boots, came to talk to Junior and Senior High School students about writing and publishing books.

She gave a very interesting and informative talk. She told the students to start writing at an early age and keep at it. You have to be very patient and not just go into writing for the money, she said. It is very hard to get rich by writing, unless you get on the best sellers list. She went on to say how difficult it is to get a publisher to accept your work, so do not be discouraged if you are turned down by several publishers, keep on trying. Some famous best sellers were turned down by many publishers before they were finally accepted.

At the end of the talk, many students asked questions and the session went on longer than had been expected. Mrs. Bellingham then went over to the Elementary School to talk to the students there.

Sergeant attends council meeting

On invitation, Sergeant Fell attended the Monday night meeting of Town Council.

is. Lifting the by-law, he feels, would create a lot of problems.

Sergeant Fell is a relative new comer, arriving in Elk Point last July. He has served with the R.C.M.P. for sixteen years, previously being stationed in Regina, Banff, Calgary, Brooks and Glendon. Sergeant Fell served five years in the "K" Division and the last two years in service training. This is the first command post Sergeant Fell has held and he finds it enjoyable and challenging.

Council took the opportunity to question Sergeant Fell concerning a few of the Town's by-laws, such as angle parking and the ski-doo by-law. Sergeant Fell stated that he hasn't encountered too much of a problem with angle parking, except the occasional U-turn in the middle of the street. On the ski-doo by-law, Sergeant Fell strongly recommends to leave it as it

Sergeant Fell then addressed Council and asked all present if there was anything they would like to bring to his attention. The Council mentioned that, in the past, the R.C.M.P. have been involved in the community, organizations and clubs, but that in the last few years, interest on the part of the detachment has waned. Sergeant Fell, himself, at the present time is a Director of the Curling Club, a Beaver Leader, Minor Hockey Coach, and a member of the Parish Council, and hopes that the detachment will be more involved in the Community in the future. Sergeant also stated that the detachment would like to implement programs such as Range Patrol, Neighborhood Watch and Block Parents, with the help of local clubs and organizations. Councillor Morris Cooper praised the

We would like to organize an annual talent night with both student and adult participation from the community. As this is still in the development stage, we would appreciate your input in regards to whether or not it is a good idea.

Sergeant Fell also stated that in the near future he will be able to hand in a report on the activities in the Town of Elk Point, to Town Council.

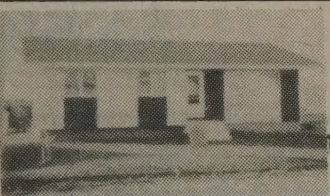

In closing Sergeant Fell explained the problem he is encountering with citizens trying to phone the R.C.M.P. during non-office hours, as the phone book does not list this number in the Elk Point section of the book.

Further Education

A Further Education Council meeting was held on November 16th. Members were treated to a smorg supper at the Empress Hotel. The members then moved to the F.G. Miller High School where the actual meeting took place.

Lawrence Modin called the meeting to order at 7:20 p.m. Co-ordinator Gwen Nelson read the minutes of the last meeting. Monitor Heather Demchuk a LEARN representative from Lakeland College gave an informative speech and slide show on the LEARN

Program. LEARN stands for Literacy, Education, and Reading Network. Over 5 million Canadians have limited literacy skills, which averages to about one in five adults. The LEARN Course is a continuous course at the Lakeland College. The tutors are volunteers who have been trained in the instruction of teaching people to read and write. There is no fee for this course and if you would like more information contact Heather at the St. Paul Lakeland College. The number is 645-3276.

Co-ordinator Gwen Nelson gave the Treasurer's report and also reported that 14 courses are now underway: eleven in Elk Point and three in Heinsburg.

Irene Magnusson reported on the North East Regional Council of Further Education meeting held in Bonnyville last June 14 with fifty members and Co-ordinators of Further Education Councils in North East Alberta present. In addition to speakers there were displays of Further Education Projects from the various groups. A Chinese cooking display provided lunch for the group. During the afternoon, participants went on a bus tour of The Suncor Plant, east of Bonnyville.

Sid Holthe: attended Alber-

ta Association for Continuing Education (AACE) Conference in Red Deer October 23-25th. Themes were "Where do we want to be?" and "Together in Learning". Distance education, co-ordinating information and improving Further Education were features of the first, while the second dealt with re-interpretation of the concept of education.

Terry Holmgren: is the director of the Agricultural Society and has interest in several agriculture projects. Some of these are: Animal Health, Home Study, Beef Dairy, Hog and Sheep, Financial Management, Purebreds, etc. The Regional Seminars will be held in Glendon.

Suggestions were then given for future courses. It was noted that there will be a Home Maintenance Course, March 12, 1984.

The meeting came to a close with Awards being given for five or more years of membership. Those who received awards are: Dora Scott, Gwen Nelson, George Saunders, Margaret Modin, Lawrence Modin, Bob Smith, Sid Holthe, Edith Mitchell, Bea Sumpton, Paul Stepa, Anne Kates, Irene Miller, Irene Magnusson, Laverne Wilson and Irene Melin.

Everyone in attendance was presented with a Further Education Pin. The meeting was then adjourned.

A visit home

by Irene Magnusson

A recent 'far-away' visitor to his Mother's home in Elk Point was Captain A.E. Arnold (better known to his friends as 'Buck'), of Montreal.

Mrs. Kate Arnold, who had been a patient in the Elk Point Hospital for a few days, welcomed her son Buck and his daughter Mary, who flew up to Edmonton, rented a car and arrived in town in time to escort Mrs. Arnold home. They were pleased to see bare ground, as they had left Montreal under a cover of snow, but it wasn't long before the white stuff descended here, along with the fog.

There were still plenty of leaves on the trees, Buck said, in Pointe Claire (a section of Montreal) when he left, and he said they had enjoyed an almost perfect summer.

"I had more grapes than we knew what to do with," he said. "In fact all the garden stuff grew well, excepting the tomatoes." He didn't know what had gone wrong with them.

Buck Arnold is a pilot for Air Canada. He mostly flies the big jets eastward, to New York, Boston and the Maritimes, occasionally into Edmonton or Vancouver, and yes, he makes his announcements in both English and French. His wife and two children are completely bilingual. Mary, 17, attends

The Lions are presently raffling a T.V. dish to be drawn

Lawrence Brosseau who is charged in connection with the beating of Mr. Aulotte appeared in Court on Tuesday, November 15th, and pleaded not guilty to the charge of aggravated
